Smart Phone camera to Hail a Safe.Cab

Location:
City Playhouse Theatre

Safe.Cabs are accredited and inspected
taxis to make your travel safer and more
effortless.

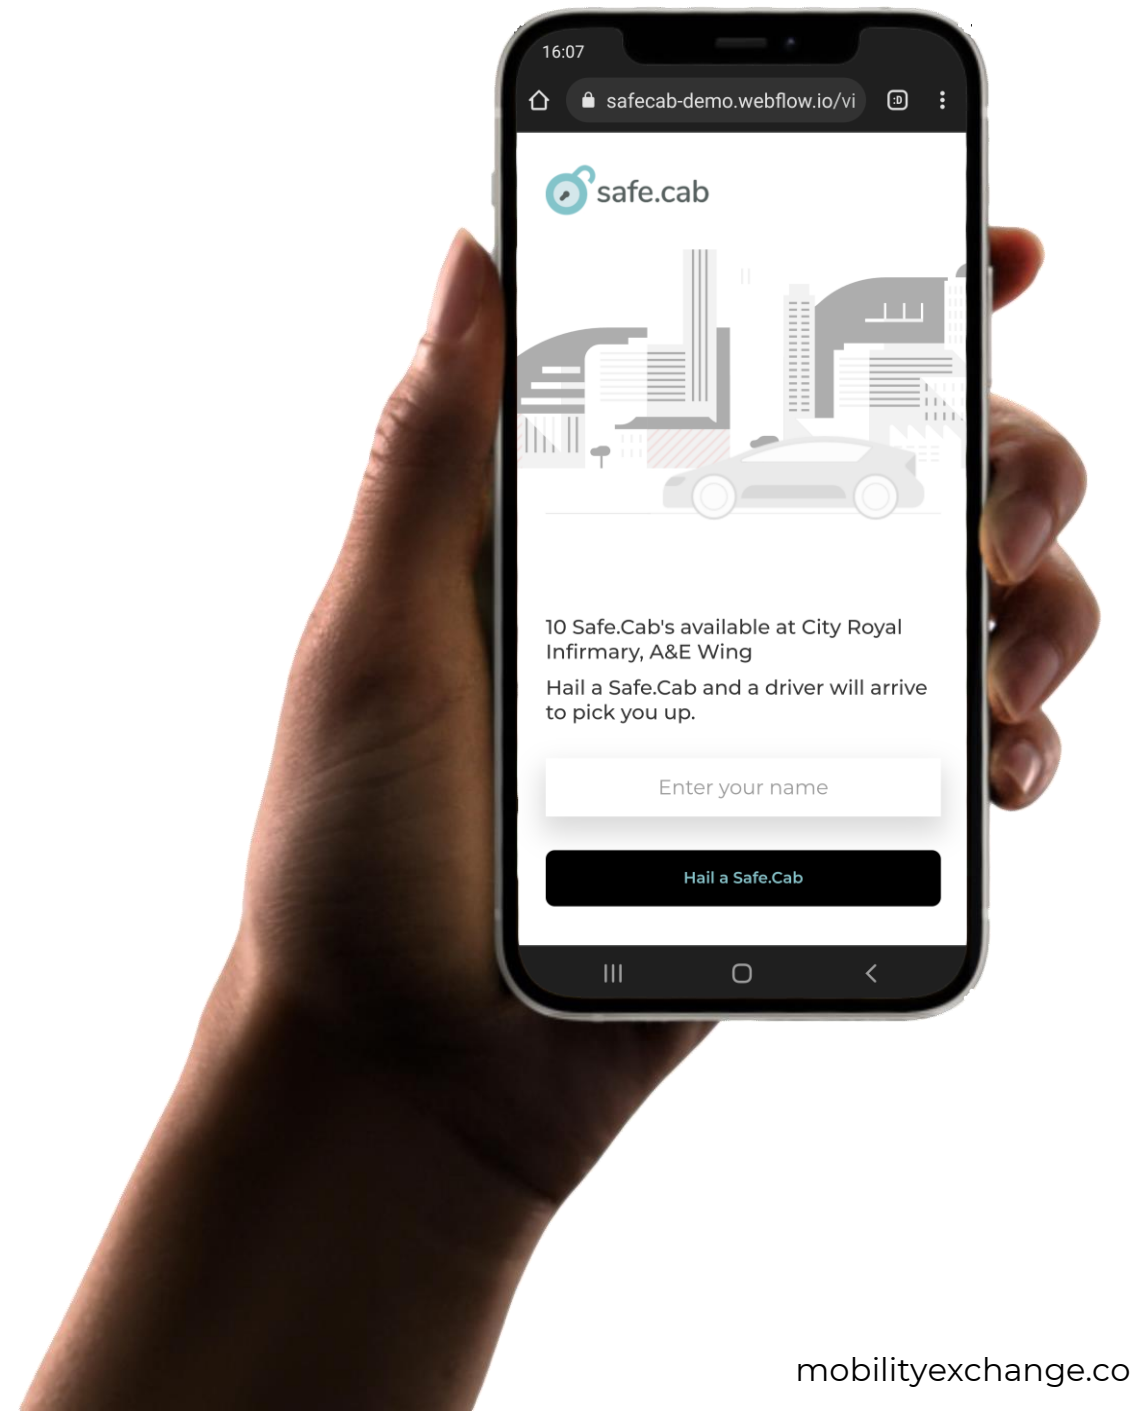

HOW TO USE OMNI: BOOKING HUBS

Locations

Dedicated publicly accessible booking hubs can be placed in any useful location (e.g., bus stops, train stations, hospitals, airports and high streets).

Scan

Passengers scan a clearly visible unique QR Code on their smart phone which opens the *Safe.Cab* portal in its web browser. It identifies all available *Safe.Cabs* in the location which can be e-hailed by entering their name/mobile number and pressing the '*hail a Safe.Cab*' button.

HOW TO USE OMNI: BOOKING HUBS

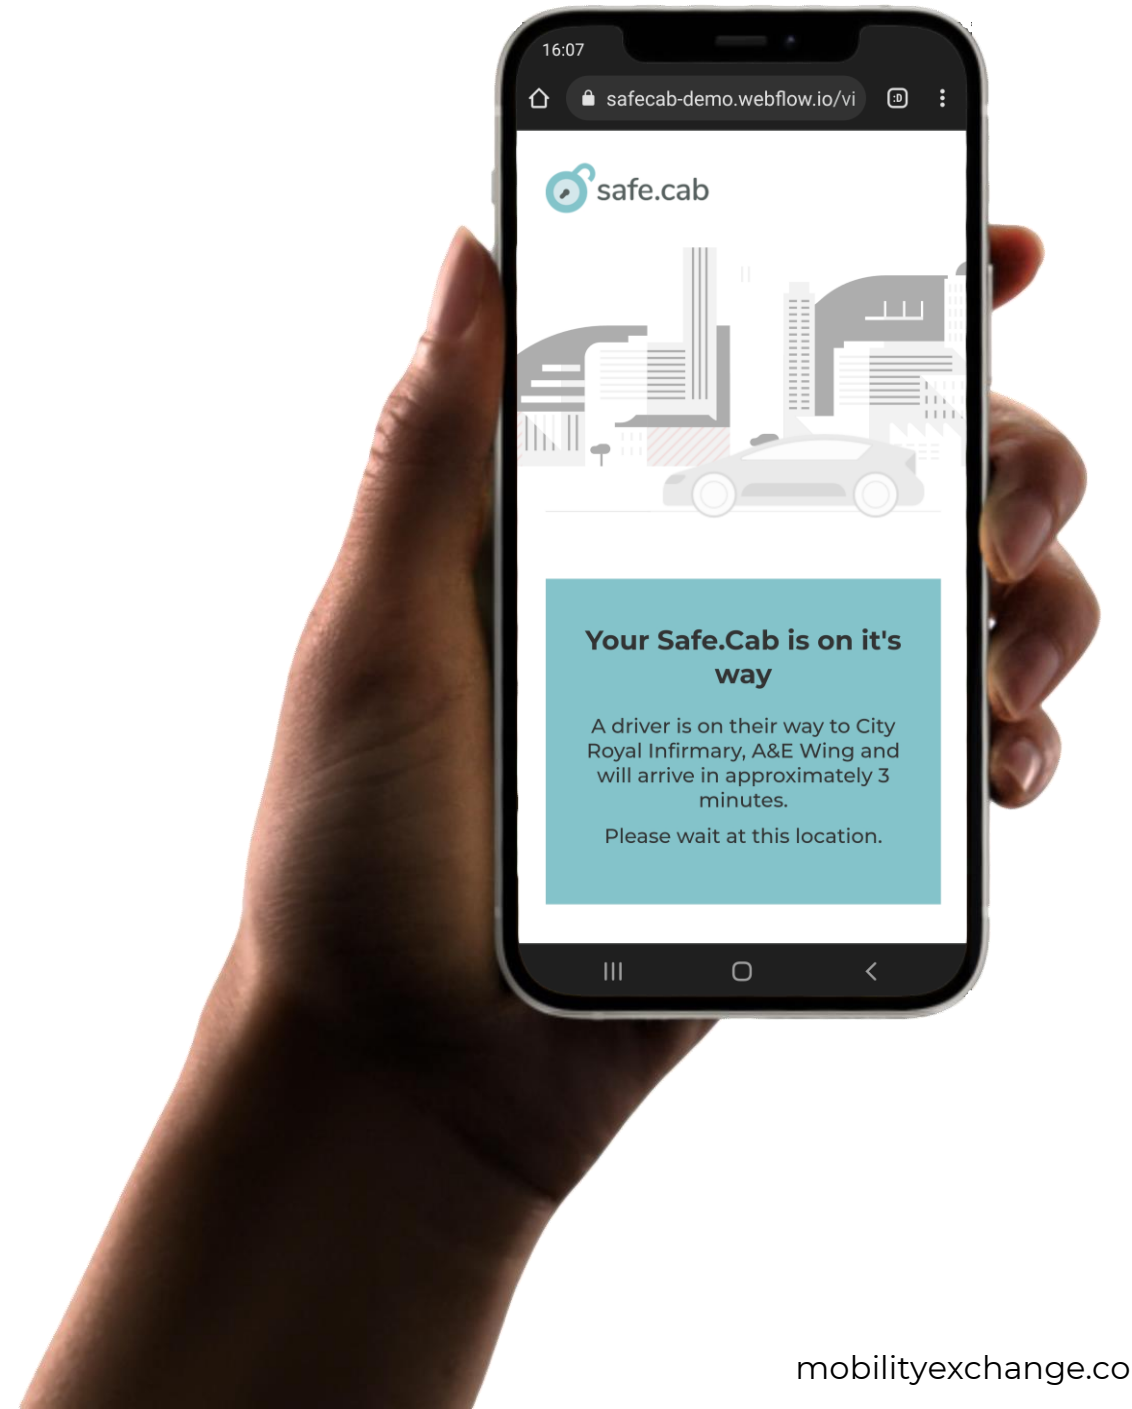

Connect to Driver

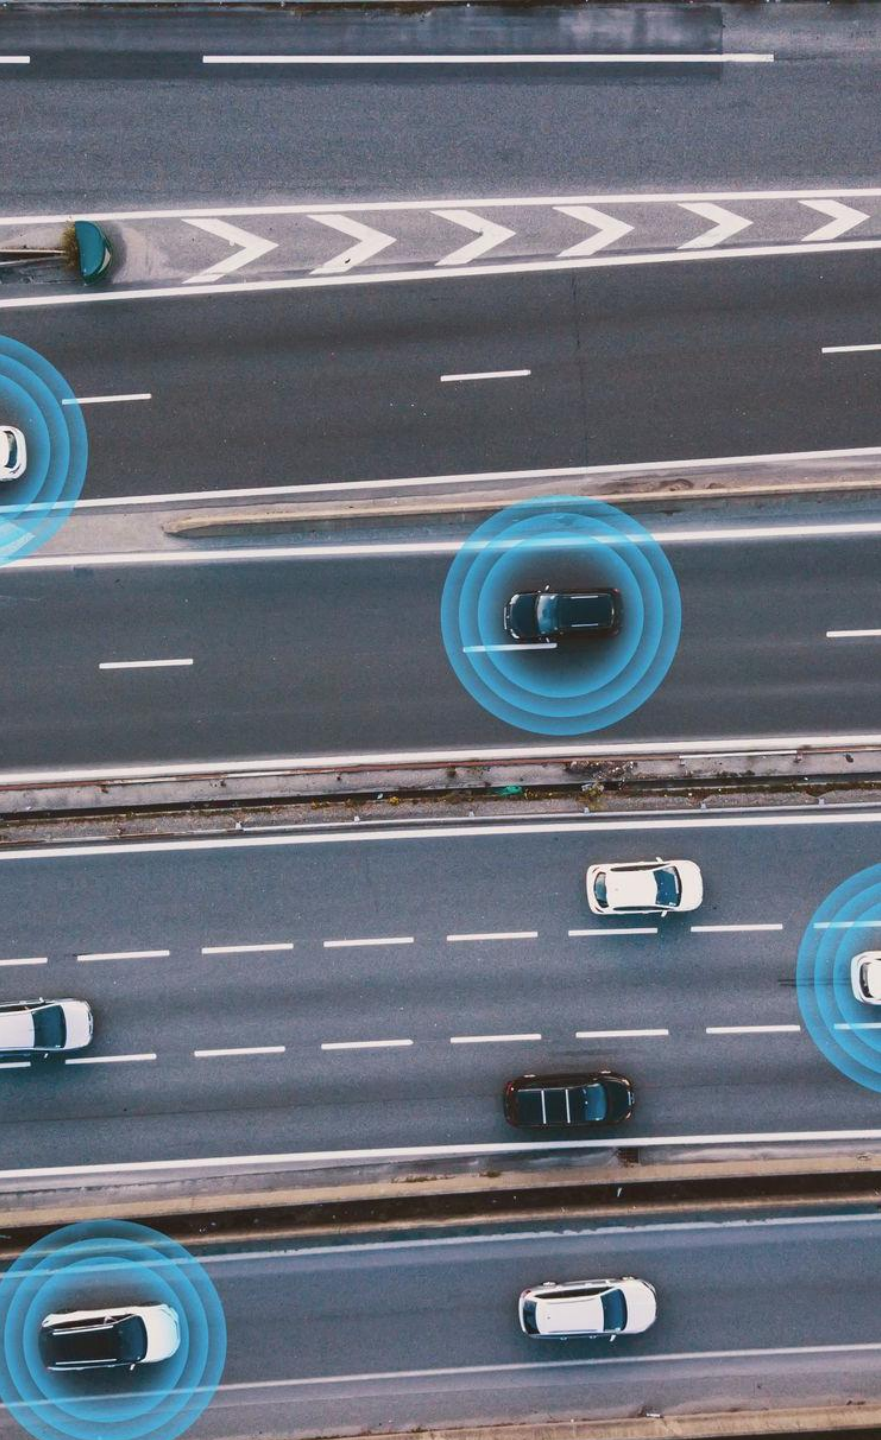

Safe.Cab's technology connects the e-hail request to the nearest available accredited independent *SafeCab* with the relevant details sent to the driver through our driver app.

Passenger Pick-up

The passenger receives an SMS confirmation when the driver has accepted the e-hail and is on route.

The driver's progress can be tracked and the passenger receives another SMS when the *Safe.Cab* arrives.

WHAT IS THE SAFE.CAB MOBILITY SYSTEM

Mobility Exchange™ has created the *OMNI* booking hubs, *SafeCab* Vehicle Scan and *Hummingbird* training products ('*SafeCab* Mobility System') to enable the **taxi trade to support the transition to active travel**.

The *Safe.Cab* Mobility System is a modular set of products to improve the public transport network. *Safe.Cab* is **built around our core values** of care, compassion, kindness, honesty and safety.

Mobility Exchange are guided by an **Advisory Panel of industry and sector experts** which ensure our products are safe, sustainable and accessible to all.

Further information on all our services and products can be found at www.mobilityexchange.co
