

# SAFE.CAB: VEHICLE SCAN

Verify driver details  
with one click.

# WHAT IS SAFE.CAB VEHICLE SCAN

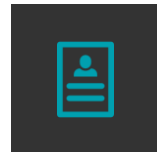

Many private hire vehicle operators provide vehicle and driver details to customers by SMS or App. *Safe.Cab* Vehicle Scan levels the playing field for local taxi drivers by:

**Adding the same safety function to independent taxis**

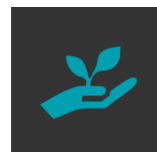

**Allows anyone to quickly + easily check the licensing status of a vehicle and driver**

**Providing reassurance for customers they are using an accredited taxi**

**Customer feedback and driver business marketing**

**Extending the lifespan of vehicle identification plates and reducing plastic waste**

# HOW TO USE SAFE.CAB VEHICLE SCAN

Safe, secure, and simple

The advertisement features the safe.cab logo at the top left. Below it, the text reads "Scan the safe.cab QR code to verify your driver". A large QR code is centered in the middle, enclosed in a dashed white box. Below the QR code, the text says "With safe.cab, you can also:". At the bottom, there are three icons in teal boxes: a document with a checkmark for "Give anonymous feedback", a star with a hand cursor for "Book this driver again", and a percentage sign for "Access top local deals". At the very bottom, the Mobility Exchange logo and website "mobilityexchange.co" are displayed.

safe.cab

Scan the **safe.cab QR code** to verify your driver

With safe.cab, you can also:

- Give anonymous feedback
- Book this driver again
- Access top local deals

MOBILITY EXCHANGE mobilityexchange.co

## ACCESSIBLE + UNIQUE IDENTIFIERS

Uses accessible features to make sure all passengers can view and download details without needing to ask the driver.

## NO NEED TO DOWNLOAD AN APP

Works using QR code technology so any person with a smartphone can quickly + easily verify driver and vehicle details.

## INCREASED BOOKINGS FOR DRIVERS

Provides independent transport operators a platform to advertise skills, availability and booking details.

# BENEFITS OF SAFE.CAB VEHICLE SCAN

## Available to view immediately

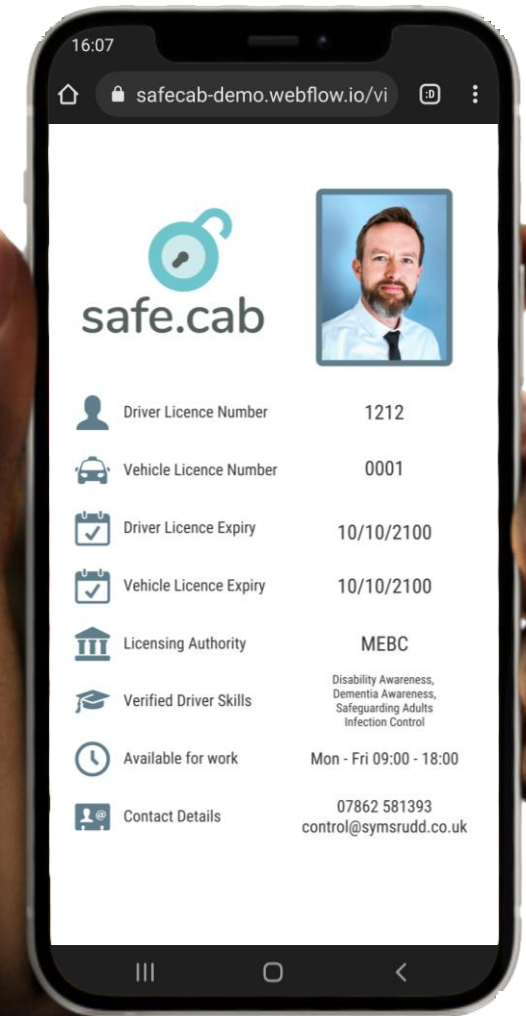

Provides driver and vehicle details, licensing authority information and driver verified skills.

## Download + save a pdf

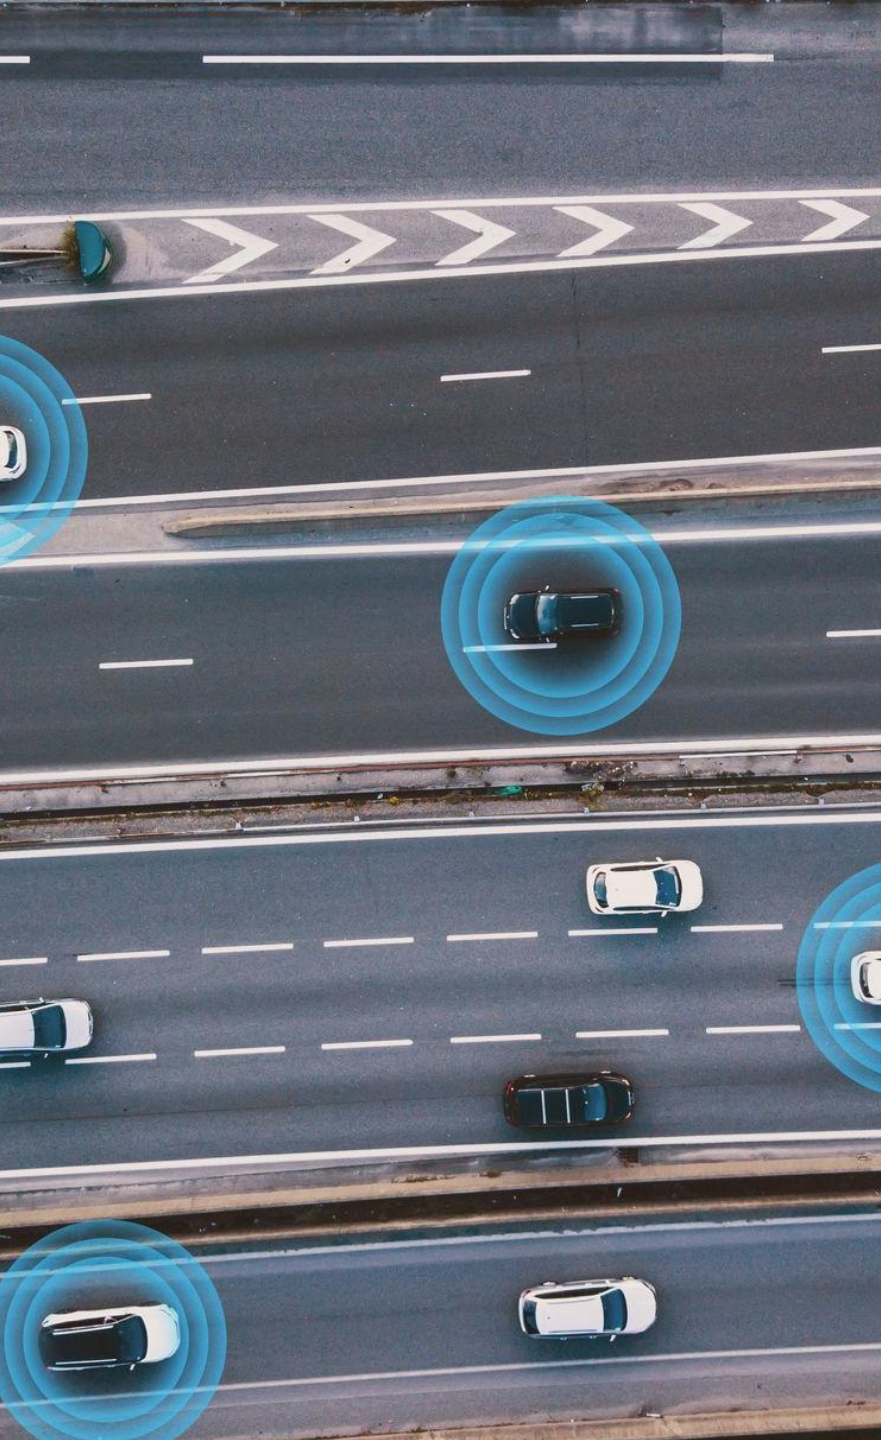

Customers can quickly and easily download for future use allowing them to re-book drivers who provide an excellent customer experience.

## Report any concerns

A built-in reporting function allows positive or negative customer feedback directly to Taxi licensing teams in real time.

# WHAT IS THE SAFE.CAB MOBILITY SYSTEM

Mobility Exchange™ has created the *OMNI* booking hubs, *SafeCab* Vehicle Scan and *Hummingbird* training products ('*SafeCab* Mobility System') to enable the **taxi trade to support the transition to active travel**.

The *Safe.Cab* Mobility System is a modular set of products to improve the public transport network. *Safe.Cab* is **built around our core values** of care, compassion, kindness, honesty and safety.

Mobility Exchange are guided by an **Advisory Panel of industry and sector experts** which ensure our products are safe, sustainable and accessible to all.

Further information on all our services and products can be found at [www.mobilityexchange.co](http://www.mobilityexchange.co)
